

COMBINING *UPRISING* WITH OTHER *DUNE: IMPERIUM* PRODUCTS

DUNE: IMPERIUM — UPRISING is compatible with all previous *DUNE: IMPERIUM* products.

ADDING *RISE OF IX*

- During setup, keep the CHOAM board overlay folded in half and cover only the top-right corner of the *UPRISING* board. This will create a new CHOAM section and cover the Assembly Hall and Gather Support board spaces in the Landsraad, while leaving the rest of the Landsraad board spaces in *UPRISING* unchanged.
- Because *RISE OF IX* was produced before *UPRISING*, the CHOAM board overlay and Ix board don't have observation posts printed on them. **Play as if there is one observation post on each of those boards:** one observation post connects to Interstellar Shipping and Smuggling and the other connects to Tech Negotiation and Dreadnought.
- We recommend that you do not add the Conflict cards from *RISE OF IX*. You may do so if you wish, but it will make matching battle icons slightly harder. (However, you will need one additional Conflict III card to play the Epic Game Mode. In this situation, you should add *Economic Supremacy*.)
- Using *Ilesa Ecaz* requires the *Foldspace* cards from *DUNE: IMPERIUM*. (Allow *Ilesa Ecaz* to acquire *Foldspace* cards, even though they can't be acquired by anyone else.)

ADDING *IMMORTALITY*

- Although the Research Station in *UPRISING* is different from the one on the original *DUNE: IMPERIUM* game board, you should still cover it with the Research Station overlay.

COMBINING WITH BASE *DUNE: IMPERIUM*

- We recommend that you don't add the Conflict cards from *DUNE: IMPERIUM*. You may do so if you wish, but it will make matching battle icons harder.
- As there is no Mentat in *UPRISING*, you should remove the *Calculated Hire* Intrigue card (and the *Sort Through the Chaos* Conflict card, if you've chosen to use the Conflict cards from *DUNE: IMPERIUM*).
- You may shuffle all other Intrigue and Imperium cards with *UPRISING* if you wish, or create your own custom blend of select *DUNE: IMPERIUM* and *UPRISING* cards.
